A two-way active partnership

Our Education Partnership grants the use, for your courses, of the very latest versions of our *software*, together with adapted technical and economic conditions, and commits us both to regular discussions to invent tomorrow's software together.

Professional solutions to prepare your students for the real world of Radio.

Our solutions allow your students to work on the entire chain of programme creation, from acquisition to broadcast, including editing an item, creating and modifying playlists. They will be immediately operational.
