

Release 8.71

Release 8.71 is available currently. Here's a roundup of the main features.

-  RadioAssist
-  AirPlaylist

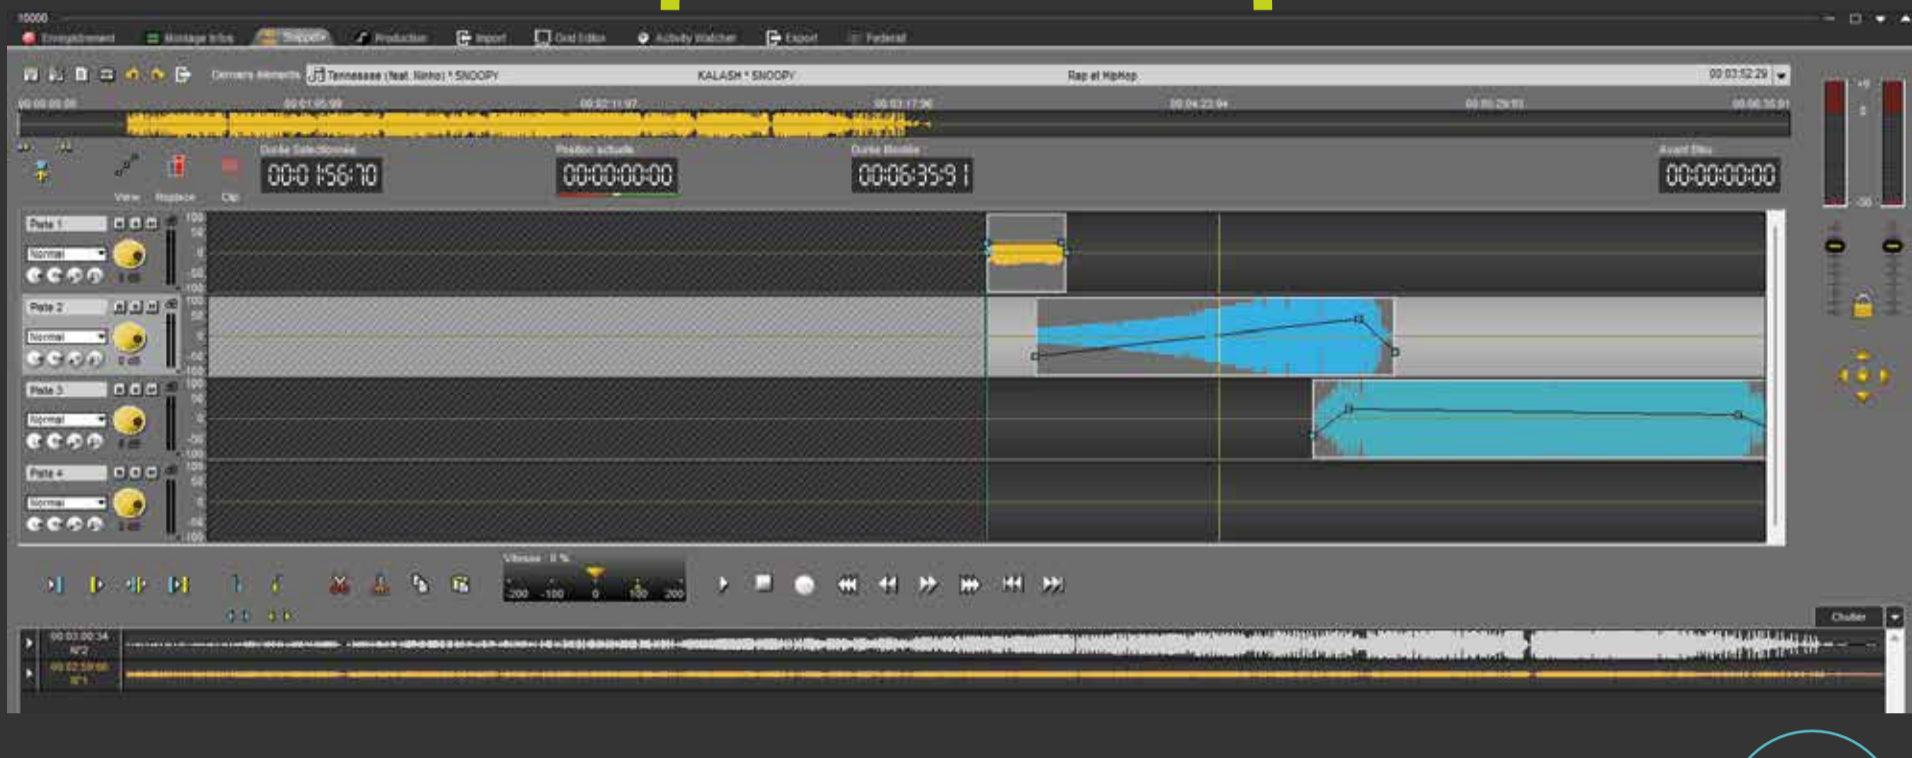

RadioAssist

 **Export AAF**
Finalise Snippet+ edits with an expert production tool: SEQUOIA and ProTools 2021/22

 **Mode insert All**
Insert new sound items whilst keeping the current mix on all the tracks

 **Not forgetting**
Visualise the sound level of each track;
Empty the cuttings bin with a click;
Access clip indexation with keyboard shortcut Ctrl+O
